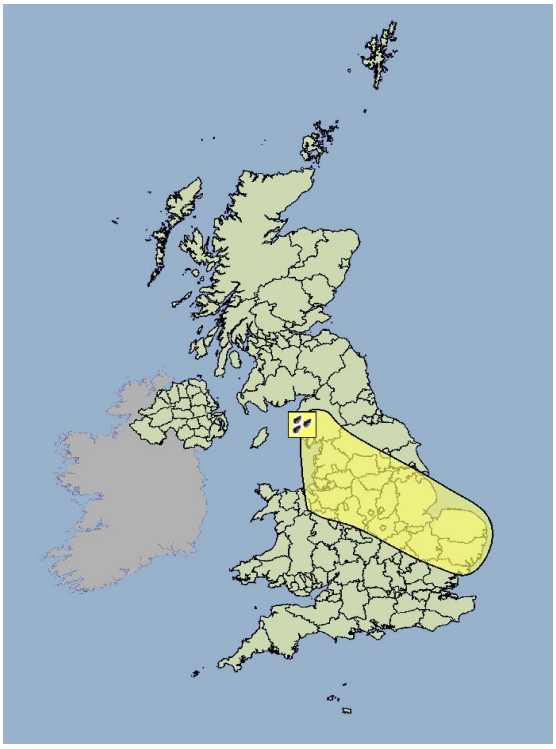
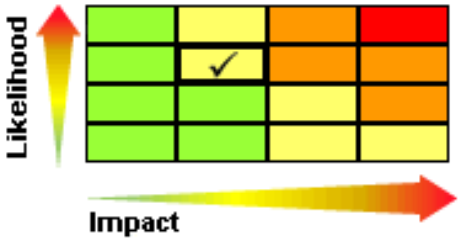
National Severe Weather Warning Service





Chief Forecasters Assessment
As with recent days, temperatures will rise on Tuesday and trigger some heavy downpours. These may locally produce 15 to 25 mm rainfall in an hour where they become slow-moving, bringing the risk of flooding, especially if across urban areas.

The Met Office have issued a **Yellow Warning** of **Rain**

Valid from **10:00 on Tue, 14th Jun 2016** until **21:00 on Tue, 14th Jun 2016**

Scattered heavy, thundery showers are expected to develop again on Tuesday, and will lead to slow-moving downpours across the warning area. Many locations will miss these, but where they do occur, please be aware of possible localised flooding and disruption to travel.
